MICHAEL C. GAUTHIER

gauthier.mi@northeastern.edu | (908) 821-3897 | Boston, MA | New York, NY | linkedin.com/in/mgauthier1

EDUCATION

Northeastern University, College of Engineering — Boston, MA
Candidate for Bachelor of Science in Mechanical Engineering, Minor in Entrepreneurial Startups — *May 2027*
Relevant Coursework: Thermal Systems Analysis & Design, Measurement & Analysis with Thermal Applications, Mechanical Engineering Computation & Design, Dynamics, Thermodynamics, Fluid Dynamics, Mechanics of Materials
Semester Abroad: Saint Louis University, Madrid, Spain — *Fall 2023*
Westfield High School | *Cum Laude* | *Dean's List* — *June 2023*

TECHNICAL SKILLS

- **CAD/Design:** AutoCAD (2D/3D, GD&T), SolidWorks, ArcGIS, plan set production, CAD Standards (MassDOT), Details, Profiles
- **Programming/Analysis:** MATLAB, Python, C++, Java, JavaScript, Arduino, automation/data analysis, Microsoft 365
- **Lab Work:** Instron (tension, compression, bending, torsion), Bluehill, stress-strain graphing, yield/failure analysis
- **Equipment:** Total Station, Trimble GPS/GNSS, 3D printing, laser cutting/engraving, power tools, woodworking

WORK EXPERIENCE

Town of Wellesley, Engineering Division — Wellesley, MA
Construction Engineering Co-op — *Jul 2025 – Present*

- Design & implement an ArcGIS-based inspection system to replace paper forms, cutting inspection time by 50%
- Automate drafting by writing Python scripts to convert 100+ hand-drawn sketches into CAD linework
- Operate Trimble GPS & total station to capture 300+ survey points for plan development
- Draft 20+ AutoCAD drawings, including existing conditions, proposals, and final plan sets

Brandy Melville — Boston, MA
Stock Associate — *Sep 2024 – Jul 2025*

- Managed inventory flow, processing 25+ shipments daily and maintaining organization
- Remodeled backstock by moving storage zones & building shelving to improve workflow efficiency

CA Light Designs — Westfield, NJ
Small Business Founder & Owner — *Mar 2021 – Aug 2024*

- Built custom LED products, iterating on mechanical & electrical design to improve final product
- Optimized an engraving machine to improve precision and reduce production time by 75%
- Scaled order volume by 2x within one year through improved design, manufacturing, & customer service

ENGINEERING PROJECTS

NU Give a Hand Club | *Prosthetic Design Volunteer* — *Jan 2025 - Present*

- Model prosthetic hand mechanisms in SolidWorks, 3D-print prototypes, and collaborate with peers to refine designs

NU Electric Racing Club | *Tire Optimization Volunteer* — *Sep 2024 - Present*

- Evaluate tire materials to reduce rotational inertia and improve acceleration/efficiency, using MATLAB to analyze data

Clean Energy Exhibit for Boston Middle School Exposition — *Jan 2024 – Apr 2024*

- 3D-printed a SolidWorks wind turbine and laser-cut a CAD house model with LEDs to visualize energy generation
- Programmed a MATLAB Arduino game with interactive lighting that ran glitch-free under repeated child use

VOLUNTEER WORK

Coding with a Cause Club | *Co-President & Co-Founder* — *Sep 2022 – Jun 2023*

- Led monthly outreaches to teach kids web design & coding through hands-on workshops
- Expanded to additional schools (100+ students), each student built a personal website

Dana-Farber Cancer Institute | *Fundraising Event Organizer* — *Jul 2025 – Oct 2025*

- Planned fundraiser yoga events (instructor sourcing, payment workflow), raising ~$1k for cancer research

INTERESTS

Distance Running (Marathons & Triathlons), Hiking (National Parks), Piano, Cars, Skiing (Ski Club), ASME
